

PROJECT NEWSLETTER - JANUARY 2025

Welcome to our project newsletter about the works taking place at Farm Lane. We will continue to publish regular newsletters throughout the project to provide progress updates & inform you of movements in & around the construction site.

What's the project about?

Neilcott Construction are undertaking the works for Hammersmith & Fulham Council's Farm Lane development scheme in Fulham. Works involve the demolition of the former children's centre at 11 Farm Lane, to make way for the development. The site has been underutilised and provides an opportunity for the delivery of new homes for the local community.

The re-development will:

- Deliver 31 high quality, energy efficient new homes on this under-used site
- Provide affordable housing for local people (50% of the new homes will be affordable)
- Provide high-quality landscaping which encourages biodiversity
- Be built to high energy efficiency, Passivhaus Classic Standard

Works that have been carried out since November:

- The building has been demolished, and foundation works are progressing well, these will carry on throughout January and early February.
- The parking bays opposite the site have been re-located to aid in the movement of vehicles and mitigate any disruption to residents from traffic turning into site.

What's happening next?

- The Tower Crane will be erected in February.
- The foundation works will be completed, and the ground floor slab will be cast.

MEET THE TEAM

Darren Probets
Project Manager

Jenny Bignell
Social Value Manager
jbignell@neilcott.co.uk

How we're constructing sustainably

We are constructing the Farm Lane development using the Passivhaus method. Passivhaus construction prioritises energy efficiency, occupant comfort, and environmental sustainability. It reduces the need for bought-in energy by harnessing natural energy sources. Passivhaus also significantly reduces energy consumption and carbon emissions, offering a comfortable and healthy environment for occupants, and lower energy bills.

We would like to take this opportunity to thank you, our surrounding neighbours for your continued patience throughout the construction period. Should you have any questions or concerns relating to the site activity, please contact a member of our team via their contact information overleaf or at farmlane@neilcott.co.uk

CONSIDERATE
CONSTRUCTORS

Our site is registered with the Considerate Constructors Scheme. It is monitored by an experienced industry professional to assess our performance against the Code of Considerate Practice, which aims to reduce the impact from construction on the local community.

If you have any complaints or comments regarding our site activities & do not want to contact our site team, please contact the scheme's administration office on 0800 7831423. Alternatively, please visit the scheme's website: www.ccsscheme.org.uk
